

# HV600 ROADSHOW

## Join Critical Systems for Yaskawa HV600 Training

**October 1 | October 2 | October 3**

This course provides an overview of VFD basics from installation to start-up programming, featuring the Yaskawa HV600 VFD. Learn how to improve your bottom-line profitability by installing, starting, and servicing Yaskawa VFDs. Training will include:

- Motor basics and VFD basics
- Standard start-up procedure and programming
- Special tuning and field trouble-shooting
- Regularly encountered start-up issues and fixes

At the conclusion of the class, technicians can elect to take a Standardized Electrical VFD Test for certification. If the technician passes the test *and* submits completed Startup/Warranty paperwork (instruction provided during training), Yaskawa will provide a limited 3-year parts and labor warranty.

- Cost: \$400 up to two attendees, \$300 for third and following attendees (breakfast, lunch, and all training materials provided)
- Dates (choose one): October 1, October 2, October 3
- Time: 8:00am – 4:00pm
- Location: 12216 Parklawn Drive, Suite 112, Rockville, MD 20852
